EXPERIENCE

Java Software Engineer   Aug. 2023 – Present
Picnic Technologies   *Amsterdam, Netherlands*
- Led integration of traditional search with LLM engine, resulting in up to 15% increase of conversion rate.

Engineering Manager   Dec. 2022 – Aug. 2023
Exness   *Limassol, Cyprus*
- Led development and support of a platform for omnichannel customer communications with strict requirements for latency and availability.
- Recruited and integrated highly skilled and experienced professionals, resulting in a stronger, more efficient team.
- Streamlined product focus by successfully handing over several not relevant services.

Java Software Engineer   Dec. 2021 – Sep. 2022
Revolut   *Moscow, Russia*
- Led analysing, development and acceptance testing of Debit Card Overdraft product, a feature allowing customers to overdraw their debit card accounts up to a specified limit, preventing transaction declines. Ensured full compliance with legal requirements for the UK and EU markets.
- Designed the solution architecture for a set of features ensuring the bank's compliance with Regulation Z requirements set by the US Federal Reserve Board.

Engineering Manager   Feb. 2019 – Jun. 2021
Raiffeisen Bank   *Moscow, Russia*
- Led and managed team working on several Cash Management products. Built up from the scratch processes of analysing, development, testing and releasing features.
- Developed brand new system for handling corporate deposits. The system was built using microservice architecture, with close to real time Money Market quoting integration. Introduction of new system lead to significantly decreasing risk of mishandling business data by operations employees, reducing opex and improving customer experience.

Big Data / Java Developer   Apr. 2016 – Feb. 2019
DataArt   *Voronezh, Russia*
- Developed e-commerce system, transitioned it from JSP to SPA front-end architecture.
- Participated in developing custom ETL pipeline using Hadoop and Spark for one of the biggest pharmaceutical companies of USA.

Big Data Developer   Aug. 2013 – Mar. 2016
AT Consulting   *Voronezh, Russia*
- Developed Hadoop based data datalake, performed data analysing using Spark and MapReduce.

EDUCATION

Voronezh State Technical University   2013 – 2017
Bachelor of Science in Information Technology   *Voronezh, Russia*

TECHNICAL SKILLS

Languages: Java, Python, SQL
Frameworks: Spring Boot, JUnit, Mockito, Cucumber, JDBC, Hibernate
Databases: PostgreSQL, MongoDB, Redis
Distributed Systems: Apache Hadoop, Apache Spark, Apache Kafka
Developer Tools: Maven, Git, Liquibase, Prometheus, Grafana
CI/CD and Cloud: GitLab CI/CD, Docker, Kubernetes, AWS

LANGUAGES

English: Proficient (C1)
Russian: Native
